Faculty of Computers and Data Science Alexandria, Egypt

08/2027

- CGPA — 3.9706

Volunteer Work

- Majored in voluntary work on the IT committee at "HackerRank FCDS" community.

Projects

Invoice App

Front End

07/2023 - 09/2023

- Users can create, read, update, and delete invoices, filter invoices by status (draft/pending/paid), toggle light and dark mode, and keep track of any changes, even after refreshing the browser with local storage. The project is fully responsive. user-friendly UI with a very nice design.
- **Design**: [Front end mentor](#)
- **Technologies**: HTML, CSS, Javascript, React.js
- [Live Demo](#), [Source code](#)

Chat App

Full Stack

07/2022 - 08/2023

- Users can type their names, join the chat, and send messages and other viewers can see it immediately without refreshing the page. latest messages are stored in MongoDB atlas. The project is fully responsive.
- **Technologies**: HTML, CSS, Bootstrap5, Javascript/node, React.js, express, mongoose, socket.IO
- [Live Demo](#), [Source code](#)

Problem Solving Platform (Arab expert)

Full Stack

05/2022 - 02/2023

- Pages: login & sign in, home, challenges page, single challenge page, ranking page, admin page, articles page, user page. Fully responsive. Users can filter challenges by hardness, read descriptions of challenges, write , run, and submit their solutions and see their output and expected one, and then get points depending on hardness, and see the right solution or download their solutions.
- **Technologies:** HTML, CSS, , Bootstrap5, Javascript/node, React.js, express, mongoose
- [Live Demo](#), [Source code](#)

Audiophile E-Commerce Website

Front End

08/2022 - 09/2022

- Pages: home page, headphones page, earphones page, speakers page, single product page, checkout page. This project is fully responsive. Users are able to add/remove products from the cart, edit product quantities in the cart, see an order confirmation modal after checking out with an order summary, keep track of what's in the cart even after refreshing the browser with local storage.
- **Design:** [Front end mentor](#)
- **Technologies:** HTML, CSS, , Bootstrap5, Javascript, React.js
- [Live Demo](#), [Source code](#)
